Thank you for buy these assets

1. First set you Editor resolution ratio 1080*1920. Or change to android mode, portrait, It can display the correct game picture.

2. open the path "Assets\MainGame\Scenes", then open the "Start" Scenes you can play the game,

3. When you into the game,, press buttons "A" or" D", you can roll the box and Move

How to Custom:

1. In the path "\Assets\MainGame\Scripts", there are the game scripts.

2. In the path "Assets\MainGame\Prefab\Hero", there are the game roll box .

3. In the path "Assets\MainGame\Prefab\Sound", there are the sound prefab.
